**Bethel's Columbarium** is a ministry for Bethel members and their families. It is a granite structure providing niches (sacred openings) for the permanent placement of urns that hold cremated remains. Each niche holds up to two urns. The site is designed to hold three columbarium units.

The **Memorial Garden**, located at the Highlands Campus offers a beautiful setting, housing columbaria and a memorial wall. Additional features include shade trees, a perennial garden, benches, nighttime lighting, privacy, and easy accessibility.

The **Memorial Wall** offers a wonderful opportunity to honor a loved one through purchase of a memorial wall plaque. Each 2" x 5" steel plaque contains two lines: the first line lists the name of the deceased, the second lists the years of their birth and death.
